CREATE YOUR OWN INSECT

Have fun making your own insect

An insect they must have:
- 3 body parts: head, thorax, and abdomen
- 2 antennae
- 6 legs

NAME:

ABOUT YOUR INSECT
MAKE YOUR OWN PUZZLE

1. Colour in the drawing
2. Cut along the lines
3. Mix up the pieces
4. Put together your puzzle! (You can stick it down on another piece of paper or card) TOP TIP: Start with the corners and edges.
1. Cut out the mask
2. Decorate with leaves, flowers, colours, anything natural you can find.
3. Punch 2 holes on the sides
4. Tie in string
5. Put on the mask and have some fun
DUDU SUDOKU

In each section of the sudoku, there should be one of each of the dudu’s.

In each grid  

In each line  

or 

Draw in the missing dudu’s

1.  
2.  
3.  
4.  

* Look at the last page for answers
WINGS

Draw the other side of the winged insect. Try your best to make them the same. Colour them in.

Can you draw some other insects that fly? You can also colour them in.
MATCH THE DUDU TO THE FACT

DUNG BEETLE

I can eat my own weight in food in one day.

LOCUTS

I can drag 1141 times my weight. That’s like a human pulling 6 double-decker busses!

LADYBIRD

I can eat more than 5000 insects in my life.
Tops and Bottoms

1. From the cut-out page, cut out the different vegetables.
2. Stick them where they grow. Either above or below ground.
3. Now colour everything in.
MAKE YOUR OWN BUG HOTEL

**Steps**

1. Cut one side off the milk carton
2. Collect all the different materials you like.
3. Now pack the milk carton as tight as possible
4. Place outside and see what happens and who moves in.

**Materials**

- Scissors
- Milk carton
- Recycled paper
- Toilet rolls
- Twigs and sticks
- Natural material eg: leaves, grass, dried flowers.
